

**Aircraft Enhancements
Legacy 600/650**

STEEP APPROACH

Unlimited Access

By enhancing your Legacy with our steep approach system, your aircraft will have unfettered access to the world's most restricted airports, such as London City, saving you valuable time and inconvenience.

Our sophisticated system enables you to approach airports at up to 5.5-degree descent angle, rather than the standard 3 degrees, and comply with strict noise constraints. With these capabilities, you can now operate in cluttered city centers, markets that could take hours to access from unrestricted airports.

**Designed and fully
supported by Embraer**

Learn more about the Steep Approach and other aircraft enhancements by contacting your Services Sales Representative or access: <http://www.embraerexecutivejets.com/>
