FIFTH SEAT

Get The Most From Your Cabin

High-capacity operations can be easily accommodated with the addition of a fifth seat to your well-appointed cabin. By utilizing a storage area incorporated into the standard cabin design, this structurally reinforced side-facing seat will allow your Phenom 100 to comfortably accommodate seven occupants on take-off and landing. When the fifth seat is combined with our belted toilet option, your Phenom 100 will be certified to carry eight occupants for maximum use of your cabin's capacity.

**Designed and fully
supported by Embraer**
